SINGLE EARLY TULIPS
SEE PAGE 8

R. & J. FARQUHAR & CO.
6 and 7 South Market St.
BOSTON, MASS.

TO PATRONS.

The present year has been one of the most favorable in the memory of Dutch cultivators to the development of fine bulbs.

Our Bulbs have always been of the highest grade entering the United States and our growers advise us that they are larger and finer than ever this season. Clear, dry weather favored their ripening and they are exclusively air-dried, consequently they will be very solid, thoroughly matured and of exceptionally strong blooming quality.

Our Mr. John Farquhar is now in Europe giving our importations his personal supervision.

BULBS BY MAIL.

Bulbs securely packed will be sent by mail, POSTAGE PREPAID, to all parts of the United States, at the single or dozen prices quoted in the Catalogue, excepting a few heavy species for which the mail prices are given.

AT OUR GREENHOUSES

We carry large stocks of:

Araucaria Excelsa,

Begonias,

Cycas revoluta,

Ferns,

Ficus Elastica,

Palms,

and other Decorative Plants for house and greenhouse. We also carry a select line of Nursery Stock.

OUR SPRING CATALOGUE.

Please send your address for our large illustrated catalogue of Flower, Garden, and Farm Seeds, Bulbs, Plants, Ornamental Trees and Shrubs, Fruit Trees, etc., which we issue in January and mail free to seed-users. We shall be glad to receive also the addresses of any of your friends who would be interested in it.

While we exercise the greatest care to have our Seeds, Bulbs, Plants, Trees and Shrubs pure and reliable, grown in localities and under conditions tending to promote their highest development, we nevertheless give no warranty, express or implied, as to the quality, description, productiveness or any other matter of any of the Seeds, Bulbs, Plants, Trees or Shrubs we sell, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

As the prices of many articles herein mentioned are liable to fluctuation, we cannot agree to maintain them; the prices are therefore subject to change without notice.

HYACINTHS.

NOTES ON THEIR CULTURE.

HYACINTHS IN POTS.—It is important in the pot culture of the Hyacinth to have rich light soil; a compost, one-third decayed turf, one-third rotted cow manure—a year old at least—and the remainder equal parts sharp sand and leaf-mould, will be found excellent. The compost should be made a few weeks before being used. If the bulbs are to be potted singly, pots five inches in diameter should be used. Cover the hole in the pot with a piece of broken pot and over this place a layer of moss, which will keep the soil from clogging the drainage thus provided. Break off any offsets which appear at the base of the bulb, and in potting place the bulb so that its top shall be half an inch below the level of the surface of the soil, and about an inch below the rim of the pot. The soil should be moderately moist and should not be pressed too firmly. The filled pots may be placed in a cold frame where there is protection from frost, and well watered. An excellent plan is to place them on a bed of moist, sifted coal ashes, covering the pots to a depth of six inches with the same material. When well rooted, which will be in four to six weeks, they may be brought indoors and forced. For the first two or three weeks they should be kept in a temperature not exceeding 50 degrees. Success in forcing them depends much in their having strong roots before being brought to the light. The top grows rapidly and unless the roots are started much in advance, they are unable to nourish it and failure results.

Hyacinths for early use may be potted in September, although October is perhaps the best time; late planting is not advisable as the bulbs deteriorate; it is better to pot them in October and keep them in a cold frame above freezing, when desired for late use.

To obtain dwarf foliage and fine flower spikes, Hyacinths when being forced, should have plenty of manure-water, fresh air, and be kept very near the glass. The blooms last much longer if shaded from the sun.

HYACINTHS IN GLASSES.—The single varieties are, with a few exceptions, best adapted to this mode of culture; they produce finer flower spikes than the double.

Fill the glass with clear soft water so as nearly to touch the base of the bulb, putting a small piece of charcoal in each glass to keep the water pure and afford some nourishment. The filled glasses should be placed in a dry, cool, dark place, and kept there until the roots almost touch the bottom of the glass, when they may be exposed gradually to the light. If the water in the glasses becomes foul, or diminished, replace it with fresh water about the same temperature as the atmosphere in which the bulbs are growing; otherwise it need not be changed.

When well started, the bulbs should have plenty of light and air, but without draughts, in order that the best development and brilliancy of color may be attained.

HYACINTHS IN THE OPEN GARDEN.—The ground should be dug to a depth of at least fifteen inches and enriched with plenty of well-rotted cow manure.

Hyacinths may be planted from September until winter sets in; although if the highest success is sought, they should be in the ground by the end of October.

Bulbs planted early, develop roots in the autumn and these, if protected from injury by freezing and thawing alternately during the winter, enable the bulbs to produce much larger flower spikes than if the roots are not developed till spring. Frost reaching the bulbs raises them up, thus detaching them from their roots. Protection may be afforded by covering the beds with straw, or leaves, to a depth of six or eight inches, which should be removed early in spring.

Hyacinths should be set about six inches below the surface of the ground and about six inches apart.

LARGE UNNAMED HYACINTHS.

Farquhar's Selections for Bedding and Forcing.

These are well developed, sound flowering bulbs vastly superior in size and strength to the so-called Mixed Hyacinths usually offered. Choice sorts only are included in these selections which are grown separately and put together in variety of shades of each color. Care is exercised to include only sorts which bloom at the same time and are of nearly uniform height.

LARGE NAMED BEDDING HYACINTHS.

This highly decorative class of Hyacinths is of unsurpassed excellence for producing the finest color effects in public parks and private grounds. Being of distinct and decided shades, of almost uniform height, and blooming at the same time, they admit of the most artistic grouping.

The bulbs we furnish are sound, of large size, and are selected to produce the largest blooms, under open ground cultivation.

Canary Guano,

The Best in the World, for Greenhouse and Garden. Perfectly Clean, may be used by a lady.

UNSURPASSED FOR LIQUID APPLICATION.

Provides all the Nutriment required by BULBOUS PLANTS, CHRYSANTHEMUMS, FERNS, PALMS, Etc.

Sold in large tins as imported; full directions on each. Per original tin, 50 cents.

EARLY ROMAN HYACINTHS.

These beautiful Hyacinths have now become exceedingly popular. Their graceful, feathery, delicately-scented flower spikes, often three or four from a bulb, are indispensable to the florist in his Autumn and Winter cut flower work; while to the amateur, they are among the most easily cultivated and most satisfactory of flowering bulbs. The white variety, if planted early in September and gently forced, will bloom in November, the others require from two to three weeks longer.

When grown in pots or pans, they are most effective planted in groups of six or more bulbs in each.

	Per Doz.	Per 100	Per 1000
Pure White, 4½ to 5 in. circ. . .	\$0.40	\$2.75	\$22.50
Pure White, 4¾ to 6 in. circ. . .	.50	3.00	25.00

Rose, or Light Pink50	3.00	27.00
Blue50	3.00	27.00

By mail, add 10 cents per dozen for postage.

WHITE ITALIAN, OR PARISIAN HYACINTHS.

These are about a fortnight later than the Early White Roman Hyacinths, and the blossoms somewhat larger. They are very useful for forcing, being fragrant and decorative.

Per doz., 50 cents; per 100, \$3.00; per 1,000, \$27.00.

By mail, add 10 cents per dozen for postage.

MINIATURE DUTCH HYACINTHS.

These bloom early, their pretty little flower-trusses being exceedingly fascinating. Being hardy they are available for outdoor as well as house cultivation.

	Each.	Per Doz.	Per 100
Finest Mixed	\$0.04	\$0.35	\$2.50

Musk Hyacinth, yellow and blue; delightfully fragrant	\$0.20	\$2.00	\$15.00
Feathered Hyacinths, violet; long feathery plumes03	.25	1.50

GRAPE HYACINTHS.

Very hardy, dwarf, Spring-flowering bulbs, succeeding in almost any situation and suitable for edgings and clumps in shrubbery and hardy perennial beds.

	Per Doz.	Per 100	Per 1000
Blue Grape Hyacinths	\$0.10	\$0.50	\$3.50
White Grape Hyacinths10	.75	5.50

HYACINTHUS CANDICANS.

A showy, hardy plant, blooming in July and August, and producing spikes about three feet long, crowned with numerous large pendent bell-shaped pure white blossoms.

Large roots, per dozen, 30 cents; per 100, \$2.00; per 1000, \$13.00.

By Mail, add at the rate of 15 cents per dozen for postage.

Six of a kind at dozen rate; 25 at 100 rate; 250 at 1000 rate.

Our importations of Bulbs will be the largest and most select ever brought to Boston, and the finest that Holland has produced this year.

TULIPS.

For out-door Spring decoration none of the bulbous plants are quite so popular with us as the Tulip. Being exceedingly hardy, Tulips are seldom injured by the rigour of our winters; they are easily grown and produce the most gorgeous display.

They are equally valuable for winter cultivation in the greenhouse or window.

OUT-DOOR CULTIVATION.—The beds should be made perfectly loose to a depth of fifteen inches and liberally enriched with well-rotted cow manure. The bulbs should be set five inches deep and five or six inches apart. October is the proper time to plant Tulips, although they may be set out during November if the ground remains open. Before winter sets in the beds, like all bulb beds, should be covered with leaves or other mulch to a depth of six inches, to protect the bulbs from freezing and thawing repeatedly. The mulch should be removed early in spring, but a little of it may be loosely replaced over tender shoots above ground for a few days to avoid exposing them too suddenly.

INSIDE CULTIVATION.—The soil should be a compost similar to that recommended for Hyacinths. Tulips are most effective when planted in bulb pans, which should not be less than six inches in diameter: six bulbs in a six inch pan, nine to an eight inch pan and twelve in a pan ten inches in diameter. The bulbs should be planted in October and kept moist in a dark cool place, protected from frost, until they have rooted. Unless wanted for early forcing it is beneficial to keep them dark until the tops have started two or three inches above the soil, when they may be brought gradually to the light.

Our Tulips are grown for us by the leading specialists of Holland and are unrivalled for size and quality.

SINGLE EARLY TULIPS.

FARQUHAR'S RAINBOW MIXTURE. (Trademark Registered.) The varieties included in this mixture are grown separately and are all popular bedding sorts of decided merit. The colors are carefully proportioned, and include white, yellow, pink, scarlet, crimson, and many beautiful shades and combinations of these colors. The sorts are selected to flower at nearly the same time, and to grow about the same height. For massed beds and grouping our Rainbow Mixture is unsurpassed. The bulbs offered are of the largest size and finest quality.

Per doz., 30 cents; per 100, \$2.00; per 1000, \$14.00.

Selected Mixture.—Extra quality bulbs, in many beautiful and varied sorts, flowering nearly together. Per doz., 20 cents; per 100, \$1.25; per 1000, \$10.00.

Superfine Mixture.—Choice quality bulbs, mixed as imported. Per doz., 15 cents; per 100, \$1.00; per 1000, \$8.00.

Fine Mixture.—Good bulbs in great variety. Per doz., 10 cents; per 100, 75 cents; per 1000, \$7.00.

A BED OF FARQUHAR'S GOLD PRINCE SINGLE EARLY TULIPS
on the State House Grounds, Boston. (Engraved from a Photograph.)

COMMONWEALTH OF MASSACHUSETTS.

OFFICE OF SERGEANT AT ARMS,

MESSRS. R. & J. FARQUHAR & CO.,

STATE HOUSE, BOSTON.

Gentlemen :—We consider it a pleasure as well as a duty to write you that the eight thousand Hyacinth and Tulip bulbs furnished by you for the State House Grounds are in full bloom ; each and every one absolutely perfect. We are more than satisfied.

Yours truly,

Signed,

G. M. F.

DOUBLE TULIPS.

A very ornamental and useful class, flowering usually about ten days or two weeks later than the Single Early Tulips. They are deservedly popular for bedding in both public and private grounds, the large double pæony-like blossoms being highly decorative and long duration.

DOUBLE EARLY TULIPS.

Farquhar's Rainbow Mixture. (Trade Mark Registered.) This mixture is composed of the best named sorts of bedding Double Early Tulips, grown separately and put together in studied proportions. It contains a liberal allowance of the showy light colors, white, yellow, pink, etc.; and all the sorts are selected to be of nearly uniform height and to bloom at nearly the same time.

Per doz., **30 cents**; per 100, **\$2.00**; per 1000, **\$14.00**.

Selected Mixture. Extra quality bulbs in a great variety of beautiful colors. Per doz., **20 cents**; per 100, **\$1.25**; per 1000, **\$10.00**.

DOUBLE LATE TULIPS.

Farquhar's Rainbow Mixture. (Trade Mark Registered.) Per doz., **30 cents**; per 100, **\$2.00**; per 1000, **\$14.00**.

Selected Mixture. Per doz., **20 cents**; per 100, **\$1.25**; per 1000, **\$10.00**.

Finest Mixture , all colors of Parrot Tulips20	1.25	11.00

Parrot Tulip.

NARCISSUS.

Narcissus Trumpet Maximus.

Among cultivators the commercial florists have been foremost to give the Narcissus or Daffodils the attention due them. They have learned how easily and successfully these lovely flowers may be forced into bloom during winter (even as early as Christmas) and how fascinating and lasting are the blossoms. They may be planted in pots or bulb pans six inches or more in diameter, several bulbs in each, according to size, and treated in the same manner as Hyacinths.

Narcissi are equally desirable for spring bedding. They should be planted in October or early in November to produce the best results. The bulbs should be set from four to five inches deep; the larger sorts five or six inches apart, and the small varieties three to four inches. They should never be planted in very windy situations. Groups of Daffodils in borders of hardy herbaceous plants and along the edges of shrubby beds are exceedingly effective and delicately beautiful. They are charming, too, planted in beds, especially when combined with an undergrowth of the blue Scilla Siberica, Forget-me-not, or other dwarf spring flowers.

R. & J. FARQUHAR & CO.,

Gentlemen:—The Bulbs you sent me were remarkably fine. The Lily-of-the-Valley was the best I have ever seen, producing 13 to 14 bells on a spike. Everything sent was highly satisfactory.

Yours very truly,

FAIRLAWN, NEWPORT, R. I., Jan. 6, 1899.

HARRY J. WESTLEY,
Gardener for I. T. Burden.

LARGE TRUMPET NARCISSUS.

Scoticus , elegant sort with deep yellow, beautifully serrated; perianth white; fine for forcing06	.60	4.00
Spurius , one of the finest Trumpet Daffodils; self-colored clear yellow; large wide-mouthed trumpet; excellent forcing and bedding sort Per 1000, \$18.00	.05	.35	2.50
Trumpet Major , trumpet and perianth deep golden yellow; flower large, very effective; the most popular daffodil for both forcing and bedding Per 1000, \$16.00	.04	.30	2.00
Trumpet Major Selected Northern-Grown Per 1000, \$20.00	.05	.35	2.50
Trumpet Maximus , immense size, trumpet deep golden yellow, gracefully recurved and fringed, perianth deep yellow, elegantly twisted10	1.00	7.50
Trumpet Minor , a miniature form of Trumpet Maximus, growing only about five inches high, similar in color, and having the trumpet recurved and the perianth twisted like that variety; very interesting03	.25	1.75

CORBULARIA OR HOOP PETTICOAT NARCISSUS.

	Each.	Per Doz.	Per 100
Bulbocodium (<i>Yellow Hoop Petticoat</i>), dwarf variety with deep golden yellow flowers, a number of which are produced by each bulb. It is very pretty when forced; six to eight bulbs in a six inch pan. It is also charming for edges of beds and is very hardy	\$0.15	\$1.50	\$10.00
Bulbocodium Monophyllus (<i>Algerian White Hoop Petticoat</i>), pure white; very early10	1.00	7.50

MEDIUM TRUMPET NARCISSUS.

This class includes many of the most beautiful and useful daffodils, with flowers often from three to five inches across. The characteristic feature of this section is that the trumpet is usually half the length of the divisions of the perianth, giving the flower a very refined form. In flowering they follow the Large Trumpet Narcissus. They are equally desirable for open-ground cultivation and forcing in the green-house or window.

	Each.	Per Doz.	Per 100
Backhousei William Wilkes , imbricated white perianth; wide, orange yellow cup	\$0.10	\$1 00	\$7.50
Barrii Conspicuus , large broad spreading perianth, primrose yellow; crown yellow conspicuously edged with orange-scarlet, unexcelled for cutting and lasts long in water after being cut.			
Per 1000, \$25.00	.05	.50	3.00
Incomparabilis (<i>Star or Great Nonesuch Daffodil</i>), perianth light yellow; trumpet deep yellow; variable Per 1000, \$7.00	.03	.20	1.00
Incomparabilis Cynosure , large showy flower of free growth, primrose-white perianth with bold orange-scarlet crown; a beautiful daffodil; forces well Per 1000, \$7.00	.03	.20	1.00
Incomparabilis Princess Mary , immense creamy white perianth, with large spreading yellow crown suffused with orange scarlet . .	.50	5.00	35.00
Incomparabilis Sir Watkin (<i>Giant Welsh Daffodil</i>), large primrose perianth, frequently over five inches across; cup rich golden yellow, elegantly fringed; one of the finest daffodils10	1.00	7.00
Incomparabilis Stella , pure white perianth, with bright yellow crown; very early and easily forced Per 1000, \$5.00	.03	.15	.75
Leedsii , white perianth; cup pale primrose changing to white; fragrant; excellent for forcing and open ground. Per 1000, \$7.50	.03	.20	1.00
Leedsii Amabilis , very large pure white perianth, with long lemon-yellow crown; very beautiful05	.50	3 00
Leedsii, Duchess of Brabant (<i>Vincenti</i>), elegant white perianth small canary yellow cup; a charming variety03	.25	1.50
Nelsoni Major , large white perianth: long, fluted, bright yellow cup; excellent for forcing; second early20	1.75	12.00
Triandus Albus (<i>Cyclamen-flowered Narcissus or Angel's Tears</i>), very interesting and beautiful; small daffodil with creamy white flowers06	.60	4.50

POET'S AND OTHER SHORT-CUPPED NARCISSUS.

	Each.	Per Doz.	Per 100
Biflorus (<i>Primrose Peerless Daffodil</i>), pure white with yellow cup, bearing two flowers on each stem Per 1000, \$6.50	\$0.03	\$0.15	\$0.85
Burbidgei , perianth white with yellow cup edged with scarlet; resembling <i>Poeticus</i> but much earlier03	.15	.85

Poeticus Poetarum , large, bold flower; perianth pure white, with the entire crown crimson; very striking and beautiful05	.40	2.50

IDAHO STATE HORTICULTURAL SOCIETY,

Secretary's Office, Nampa, Idaho, March 13, 1899.

MESSRS. R. & J. FARQUHAR & CO.,

Dear Sirs:—I have for more than a dozen years used seeds from your house and have always found them up to date, and "Seeds that Grow," the best of the kind. I send you an order enclosed herewith, etc.

Yours,

ROBERT MILLIKEN.

We carry daily at our Store, 6 and 7 South Market Street, Boston, an assortment of PALMS, FERNS, BEGONIAS and leading WINTER-FLOWERING PLANTS; first-class, healthy stock at moderate prices.

DOUBLE FLOWERING NARCISSUS.

**Double Narcissus
Von Sion.**

The variety which is most extensively used by gardeners and florists for Winter and Spring forcing. Our bulbs are grown in Holland where they attain the highest development.

	Each.	Per Doz.	Per 100
Alba Plena Odorata (<i>Double Foet's or Gardenia-flowered Narcissus</i>), large, double, pure white flowers, in sweetness and purity rivalling <i>Gardenia</i> blossoms; valuable for cutting. Per 1000, \$7.50	\$0.03	\$0.20	\$1.00
Alba Plena Odorata, Northern-grown , extra. Per 1000, \$12.00	.04	.25	1.50
Incomparabilis Plenus (<i>Butter and Eggs</i>), large, double yellow flowers, with orange centre; excellent both for forcing, for winter cutting, and for spring flowering in the open ground. Per 1000, \$9.00	.03	.20	1.25
Orange Phoenix (<i>Eggs and Bacon</i>), large double white flowers, with rich orange segments in the centre; very effective and desirable for both forcing and out-door planting. Per 1000, \$16.00	.04	.35	2.25
Sulphur or Silver Phoenix (<i>Codlins and Cream</i>), one of the finest double sorts, with large, pale, creamy white, fragrant flowers; Excellent for pot culture.15	1.50	10.00
Von Sion (<i>Telamonious Plenus</i>), the renowned "Old Double Yellow Daffodil." Flowers deep golden yellow; large and very decorative; the most extensively grown of all daffodils for florists' use. Per 1000, \$18.00	.04	.30	2.00
Von Sion, Northern-grown Bulbs , the largest and finest type of this most popular Narcissus; extra size bulbs Per 1000, \$25.00	.05	.40	3.00

MIXED NARCISSUS OR DAFFODILS,

	Per Doz.	Per 100	Per 1000
Mixed Large Trumpet Narcissus	\$0.25	\$1.50	\$12.00

Mixed Double Narcissus25	1.25	10.00

Six of a kind at dozen rate; 25 at 100 rate; 250 at 1000 rate.

NARCISSUS JONQUILLA OR JONQUILS.

The delicately graceful forms, delicious fragrance, and deep yellow color of their blossoms, have made the Jonquils favorites of the amateur and necessities with the florist. They are easily forced, and if started early may be flowered by Christmas, or even earlier. Plant six or eight bulbs in a six inch bulb pan, covering the crowns half an inch, and treat them in the same manner as suggested for Hyacinths.

Per Doz. Per 100 Per 1000

Double, Sweet

Scented, fine deep yellow \$0.40 \$2.50 \$18.00

Rugulosus, rich yellow; very fragrant flowers; the largest Jonquil15 1.00 7.00

Silver Jonquil,

(*Narcissus Tenuior*), pale primrose flowers on slender stems, very graceful . . 1.25 7.50

Double Jonquils.

CHINESE SACRED NARCISSUS.

Joss Flower or Oriental New Year's Lily.

These may be grown in pots of earth, but are more interesting and very satisfactory in bowls partially filled with pebbles and water. As the roots develop they form a net-work about the pebbles, thus supporting the plant when in bloom. They should be started and grown in bright light, but carefully protected from draughts. The flowers are mostly white with yellow cups and are very fragrant.

In visiting China recently, we learned that the best bulbs are produced near Canton, and we have arranged for a supply from that locality.

Chinese Sacred Narcissus.

	Each.	Per Doz.
Extra Large Bulbs, Selected	\$0.10	\$1.00
Original Baskets, thirty bulbs, \$1.75 per basket.		
By mail, add 5 cents per bulb for postage.		

DELAWARE PARK, BUFFALO, N. Y., Jan. 30, 1901.

MESSRS. R. & J. FARQUHAR & CO., BOSTON, MASS.,

Dear Sirs:— You will receive through our auditor Mr. Brothers, in a day or two our Seed list for this Spring. We have always had success with your seeds, and particularly the finer Greenhouse sorts, which you will notice are what we purchase from you.

Truly yours,

JAMES BRAIK, Asst. Supt.,
Department of Parks.

We make a Specialty of fine Grass Seeds for LAWNS, PUTTING GREENS, GOLF LINKS, Mowing and Pasture Lands. Our formulas and mixtures are personally prepared by Mr. James Farquhar. Our Grass Seeds have been extensively used in the new Boston Parks.

POLYANTHUS NARCISSUS.

A very decorative class of bulbous plants for greenhouse and window cultivation, but not hardy out of doors in our climate. They produce enormous trusses of delicately fragrant flowers, varying in color from snowy white to deep yellow. Treat the bulbs in the same manner as noted for Hyacinths, except that the bulbs should be set half an inch deeper in the soil. They may be easily and quickly forced; our florists frequently have them in bloom by Thanksgiving.

	Each.	Per Doz.	Per 100
Early Paper White , pure white, excellent for early forcing; largely used by florists Per 1000, \$10.00	\$0.03	\$0.20	\$1.25
Early Snowflake (<i>New Large-flowering Paper White</i>), the earliest, largest and most vigorous form of the <i>Paper White</i> ; the best of all for very early forcing Per 1000, \$12.00	.03	.25	1.50
Early Double Roman , white with deep yellow cup; large flower trusses; excellent for early forcing Per 1000, \$10.00	.03	.20	1.25

Yellow Varieties Mixed03	.25	1.75
All Colors, Mixed03	.25	1.75

By mail, add 15 cents per dozen for postage.

CROCUS.

With the first breath of spring the Crocus appears, often early in March. Its hardiness and earliness has made it one of the most cherished spring flowers. It is also highly ornamental, not only for bordering flower beds and shrubby groups, but for planting in lawns, either promiscuously or in arrangements of color. The bulbs should be set three inches deep, and should be planted in October or early in November to insure success. They are very effective when combined with Snowdrops, Scilla Siberica, Daffodils and other spring flowers. The Crocus can also be grown indoors either in pots or bulb pans in loam; or, in dishes filled with wet moss in which the bulbs are set closely, half an inch below the surface.

MAMMOTH CROCUS. Mixed Colors.

ACIDANTHERA
BICOLOR.

A valuable new bulbous flowering plant for greenhouse or open-ground cultivation. Each flower stalk produces from four to eight widely expanded very fragrant flowers, of creamy white color with broad violet-maroon blotches. The flowers are of very lasting character, and being borne on long stems are most excellent for bouquets and table decorations. The bulbs should be treated in the same manner as Gladioli both for forcing and open-ground cultivation. Bulbs ready for delivery in November. Each, **25 cents**.

*Acidanthera Bicolor.*

ADONIS VERNALIS.

Hardy perennial plant with beautiful cup-shaped yellow flowers and delicately divided leaves; height, six inches. **10 cents** each; **\$1.00** per doz.; **\$6.00** per 100.

AGAPANTHUS. African Lily.

Handsome summer and autumn flowering plants, throwing up large umbels of twenty to thirty blossoms. They should be grown in pots or tubs in soil similar to that suggested for Hyacinths. They are particularly suitable for piazza or terrace decoration, and may also be forced in the greenhouse.

Umbellatus, fine blue. Each, 25 cents; \$2.50 per dozen; by mail, 35 cents
Umbellatus Albus, white. Each, 20 cents; \$2.00 per doz.; by mail, 30 cents

ALLIUM.

Begonia Gloire de Lorraine is one of the most charming winter-blooming plants.

MANCHESTER GREEN, CONN., Feb. 28, 1899.

MESSRS. R. & J. FARQUHAR & CO.,

Dear Sirs: — The "Gloire de Lorraine" is the gem of my Begonia collection. It has been a mass of lovely bloom ever since November, and shows no signs of dropping blossoms yet. It is the first plant I ever owned that far excelled the picture of it in the floral catalogue. It seem as if it would exhaust its vitality. I feel very grateful to you for introducing such a plant to me.

Very sincerely yours,

H. E. S.

AMARYLLIS.

Each. Per Doz.

Liliastrum (<i>St. Bruno's Lily</i>), white; height 1½ feet.50	3.50

ANEMONES.

None of the spring flowers surpass the Anemone in brilliancy of color and profusion of bloom. They are very lasting, and have of recent years become very popular for cut-flower use, and for table decorations. The florists now buy thousands of them to force. Plant in October or November, six roots in a six-inch pot or bulb pan, covering them one inch. They may be kept in a cellar or frame protected from frost till spring, when they may be placed in the greenhouse or window to bloom.

*Freesia Refracta Alba Odorata.***FUNKIA. Day Lily.**

This is a free-growing, hardy border plant, producing spikes of large lily-like flowers, which are fragrant and strikingly beautiful in contrast with the luxuriant dark green foliage.

	Each.	Per Doz.
Subcordata Grandiflora (<i>White Day Lily</i> .) Beautiful pure white blossoms, resembling those of the Bermuda Easter Lily	\$0.20	\$2.00
Variegata , dwarf habit; leaves widely margined with white; flowers purple; excellent for edgings20	2.00

FRITILLARIA MELEAGRIS.**GUINEA HEN FLOWER.**

Exceedingly pretty, dwarf, Spring-flowering plants, with large pendant, bell-shaped flowers of white, yellow, brown and purple, usually striped or mottled. They are desirable for both house and garden cultivation. Out-of-doors the bulbs should be planted four inches deep; they are quite hardy.

	Per Doz.	Per 100
Finest Mixed , narrow leaved	\$0.30	\$1.75
Pure White , narrow leaves, very beautiful	.60	3.50
New, Large-Leaved Varie- ties , mixed	1.00	7.50

*Fritillaria Meleagris.***GALTONIA.**

See *Hyacinthus Candicans*.

EARLY FLOWERING GLADIOLI.*Gladiolus Colvillei Alba.*

These Gladioli are now extensively used by gardeners and florists for winter forcing; the dwarf, branching, gracefully-formed flowers being excellent for cut flower use. If the spikes are cut and placed in water when the first blossoms appear, they will keep expanding and remain beautiful for a week or two. Five or six bulbs planted in six-inch bulb-pans or pots, make charming groups for conservatory or window decoration; the bulbs should be set an inch and a half deep.

	Per Doz.	Per 100
Blandus , blush rose, very early	\$0.50	\$3.00
Byzantinus , rosy purple, early	.30	1.50
Colvillei , rosy purple and lilac, striped white	.20	1.00
Colvillei Alba (<i>The Bride</i>), excellent forcing variety, producing compact spikes of pure white flowers of long duration. If planted in the open ground and protected from frost, they commence to bloom in July	Per 1000, \$7.00	.20 1.00

GLOXINIAS.

Our strains of these are the finest in cultivation, being the production of leading European specialists. The roots should be planted in pots 5 or 6 inches in diameter, slightly covered, and sparingly watered until well started. They require a warm temperature.

	Each.	Per Doz.
Choicest Sorts , mixed, flowering roots	\$0.15	\$1.50
Choicest Sorts , Large Roots, mixed	.25	2.50

HELLEBORUS NIGER. Christmas Rose.

The Christmas Rose is almost hardy and if grown in cold frames with protection from frost, will produce its beautiful blossoms freely throughout the winter and spring. The flowers are about three inches in diameter; pure waxy white shaded with crimson-purple.

Each, **35 cents**; per doz., **\$3.50**. By mail, add **5 cents** each for postage.

HEMEROCALLIS. Day Lily.

Showy hardy plants for herbaceous borders and grouping among shrubs, bearing a succession of large, fragrant trumpet-shaped flowers, from midsummer till frost.

	Each.	Per Doz.
Aurantiaca Major (<i>Japanese Giant Day Lily</i>), magnificent trumpet-shaped blossoms, very broad petalled and often six inches across; of rich orange color; very fragrant. (<i>The flowers of this new variety are so large and handsome that its discoverer, whom we met while visiting Japan recently, said, that on first seeing it, he thought he had found a deep orange form of Lilium Longiflorum</i>)	\$0.75	\$7.50
Flava (<i>Yellow Day Lily</i>), clear yellow; sweet-scented flowers10	1.00
Middendorffii , a Chinese variety of dwarf habits, with large, bright yellow flowers; new30	3.00

HEPATICA.

Ready in October.

Pretty, dwarf spring flowers, very hardy and free blooming. They succeed best in rather moist and shady situations.

	Each.	Per Doz.
Blue , single	\$0.10	\$1.00
Red , double15	1.50
White , single20	2.00

By mail, add 5 cents for postage.

IRIS. Fleur-de-Lis.

An extensive and varied class of plants, which flower chiefly in the early summer and are mostly hardy. They require rich soil and abundance of water. The finest blooms are obtained from established clumps, consequently when planted they should remain undisturbed. Set the roots in clumps of three or more, four inches deep, and protect with leaves or other mulch during winter.

	Each.	Per Doz.	Per 100
Anglica Mixed (<i>English Iris</i>), large flowers of many colors, including white, lilac, lavender, crimson, blue and purple in self colors and mottled; excellent for cutting; these Irises succeed best in moderately moist soil	\$0.03	\$0.20	\$1.25
Anglica Mont Blanc , large pure white flower, excellent for cut-flower use; easily forced05	.40	2.75
Germanica Mixed (<i>The True Fleur-de-Lis</i>), large, fragrant, Orchid-like flowers embracing many shades of blue, lavender, yellow, white and purple; many of them beautifully mottled; they are excellent for decorating the edges of ponds and moist grounds. Large clumps . .	.10	1.00	6.00
Germanica Blue, Sorts Named. Large clumps15	1.50	10.00
Germanica White, Sorts Named. Large clumps15	1.50	10.00
Germanica Yellow, Sorts Named. Large clumps15	1.50	10.00

By mail, add 5 cents each for postage, on Iris Germanica.

Hispanica (<i>Spanish Iris</i>), a dwarf species of great value for forcing, with most beautiful flowers of pleasant perfume. The colors comprise white, yellow, bronze, blue and purple, and in many of them striking combinations of these colors occur. If planted out of doors, they should be put in well-drained land, and afforded mulch protection in winter02	.10	.50
Histroides , large, light blue flowers with dark spots; sweet scented; very hardy; if forced under glass may be had in bloom by Christmas; very decorative as a cut flower20	2.00	12.00
Lortetii , a beautiful variety from Palestine; the standards creamy white, veined with red-brown; the drooping petals pale lilac, veined and spotted with red-brown with a spot of crimson-purple at the throat; one of the finest Irises50	5.00	
Pavonia (<i>Peacock Iris</i>), a lovely dwarf species for pot culture; flowers white with a bright blue spot on each petal04	.30	2.00
Reticulata , one of the earliest; flowers rich violet-blue reticulated with yellow black; violet scented30	3.00	20.00
Susiana (<i>The Mourning Iris</i>), flowers of an enormous size, bluish tinted brown with a net-work of purple-brown lines25	2.50	18.00
Tuberosa (<i>Snake's Head Iris</i>), flowers velvety black and green; curious . .	.05	.40	2.50

IRIS KÆMPFERI. Japanese Iris.

In these we find combinations of form and beauty far excelling any other type. The stately flowers are often 8 or 10 inches in diameter, and of wonderfully varied and beautiful colors. They include pure white lightly veined with pale yellow, delicate shades of lilac, lavender and light blue, bright shades of rose and crimson, rich coppery red, claret, purple, violet and dark blue; in most of them the throat is blotched with deep yellow, and in some a veination of the same color over the entire flower, contrasting beautifully with the ground color.

This class particularly requires a rich, moist soil, which should be kept saturated while the flower spikes are being developed and while the plants are in bloom. *Roots ready in October.*

LILIES.

No class of Bulbous plants supercedes the Lilies in stately decorative effect, elegance of form, richness of color and fragrance combined. The amateur, commercial florist and landscape gardener employ them more and more each year; their hardiness, adaptability, luxuriant florescence and long duration rendering them indispensable for purposes of decoration in every line of floriculture.

LILIES FOR FORCING.

The bulbs may be potted from August onward in a compost of equal parts turfy loam, leaf mould, rotten cow manure and sand. It is best to start them in pots not exceeding twice their own diameter, in which they may remain till started eight inches or more. They should be transferred then to larger pots in which to bloom, exercising great care not to disturb the roots or break away the soil from about them, and setting them considerably deeper in the larger pots. This method prevents the soil becoming sour, and enables the roots forming at the base of the stem to become feeders, greatly increasing the number and size of the blossoms.

LILIUM CANDIDUM.

The Ascension or Old Fashioned English Lent Lily.

(See Illustration on last Cover Page of Catalogue.)

These are grown for us in the North of France, and are the large, thick-petalled variety. Pure white bell-shaped flowers, borne on erect racemes, excellent both for forcing and open garden cultivation. Bulbs from the Marseilles district have become degenerate and affected by disease. They should be avoided.

Mammoth Northern Grown. Each, 10 cents; Per doz., \$1.00; per 100, \$6.00; per 1000, \$58.00.

By mail, at the price of single bulbs.

LILIES FOR THE OPEN GROUND.

The increased production of many varieties of these in Japan has greatly reduced their cost, and in consequence their use has now become very general.

It is our opinion that we should plant the bulbs much deeper than we have done heretofore. While travelling in Japan recently, we found that the bulbs of the wild Lilies were usually twelve to eighteen inches below the surface, and we gathered the finest flowers from specimens growing on mountains of decaying lava where they had abundant rainfall and ample drainage. We believe that varieties like *Auratum* and *Speciosum* would be favored by being set ten or twelve inches deep and would be less affected by frost and drought. The beds should be thoroughly covered with leaves or litter during winter.

Many of the late-flowering sorts cannot be shipped from Japan until October; persons desiring to plant in the autumn should therefore prepare the beds and cover them with leaves to prevent the ground freezing until the bulbs arrive.

☞ The following Lilies sent by mail at the price of single bulbs.

Each. Per Doz. Per 100

Auratum (<i>Golden-rayed Japanese Lily</i>), flowers 6 to 8 inches in width, pure white with a wide band of gold running through the centre of each petal and numerous crimson spots. Bulbs 9 to 11 in. circ. . . .	\$0.20	\$2.00	\$12.00

Wallacei , orange scarlet, spotted with maroon, 3 feet, September15	1.50	10.00

LILY OF THE VALLEY.

CONVALLARIA.

For open ground planting we offer large clumps, each containing many flowering crowns. These may be set from six inches to a foot apart and covered three inches. They succeed best in ground which is rather moist and partially shaded.

For forcing the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot, with all the fibrous roots carefully preserved, and keeping the crowns above the soil. Place them in a temperature of about 80 degrees, cover the crowns with loose moss and keep them constantly moist with tepid water. They should flower in about five weeks.

Ready for delivery in November.

Selected Dresden. The earliest, largest and best for forcing. Strong pips with extra long roots. Per doz., **35 cents**; per 100, **\$2.50**; per 1000, **\$20.00**; per case of 2500 pips, **\$45.00**.

Best Berlin. First class selected pips for forcing. Per doz., **30 cents**; per 100, **\$2.00**; per 1000, **\$17.50**; per case of 2500 pips, **\$38.00**.

Best Hamburg. Strongest pips for late Winter and Spring forcing. Per doz., **25 cents**; per 100, **\$1.75**; per 1000, **\$16.00**; per case of 2500 pips, **\$35.00**.

Large Dutch Clumps. Each contains many flowering pips; best for planting in the open ground. Each **40 cents**; per doz., **\$4.00**; per 100, **\$25.00**. **By express only.**

Pink Flowered. Rosy pink, fragrant. Pips. Per doz., **60 cents**; per 100, **\$4.00**.

Lily of the Valley.

*Montbretia, New Seedling.***MONTBRETIA.**

Hardy border plants with elegant and gracefully branched Gladiolus-like flowers which are now much prized for cutting during summer. The colors vary from clear yellow to rich scarlet, and the plants grow about 2 feet in height. Plant the bulbs five inches deep and protect them during winter with liberal mulching. *Ready in November.*

HARDY PÆONIES.

These old fashioned, hardy plants are coming into popularity again, not so much the old sorts, however, as new forms and colors, which we have received from world-searching plant collectors and hybridists.

The "Botan" (*P. Moutans*) of the Japanese is one of the most valuable additions, many of the huge single, semi-double or *full* double flowers measuring 10 or 12 inches across and including in their type innumerable charming shades of white, blush, pink, rose, scarlet and crimson. There are also many magnificent new varieties of the Double Chinese Pæony.

Pæonies succeed best on rich, well-drained, sunny land, where they can be liberally supplied with water during the early summer months.

	Each.	Per Doz.
Double Varieties, Flowering Plants , in many beautiful colors, mixed . . .	\$0.25	\$2.50
Double White , fragrant; large flowers; very showy25	2.50
Double Pink , rose, changing to pale pink25	2.50

TROPÆOLUM.

Charming climbing plants for pot cultivation in the conservatory or window; with delicate foliage and elegant flowers. They are usually trained over balloon-shaped trellises. Plant three or four bulbs in an 8-inch pot, covering them one and a half inches.

	Each.	Per Doz.
Jarrattii (<i>Tricolorum</i>), scarlet, yellow and black.	\$0.15	\$1 50
Pentaphyllum , green and scarlet50	5 00
Polyphyllum , deep golden yellow.10	1.00

JAPANESE FERN BALLS.

In Southern Japan the long rhizomes of the beautiful fern *Davallia Bullata* are collected by the country people and wound about balls of sphagnum moss. These may be started into growth by immersing them in water until saturated then hanging them in a moderately warm temperature. They should be immersed every two or three days. Each, **50 cents**; per doz., **\$5.00**; per 100. **\$35.00**.

DECORATIVE PLANTS

For Conservatories, Greenhouses and Window Gardens.

Too large to be sent by mail.

PALMS.

KENTIA BELMOREANA.

Of the erect growing feather-leaved Palms, this is the best adapted to house decoration, and it is one of the most beautiful. The foliage is glossy dark green, the segments wide and gracefully recurved.

	Each.	Per Doz.
Plants in 3-inch pots, 3 to 4 leaves	\$0.50	\$5.00
Plants in 4-inch pots, 4 to 5 leaves80	7.50
Plants in 5-inch pots, 5 to 6 leaves	1.00	10.00
Plants in 6-inch pots, 6 to 7 leaves	2.00	20.00
Plants in 7-inch pots, 28 to 36 inches high	4.00	40.00
Plants in 7-inch pots, 36 to 40 inches high	6.00	60.00

KENTIA FOSTERIANA.

An admirable Palm for conservatory and greenhouse decoration, the segments of the leaves are erect, not drooping like those of *K. Belmoreana*, and the plant has a more stately effect. Sizes and prices, same as *Kentia Belmoreana*.

Kentia Belmoreana.

ARECA LUTESCENS. Ostrich Feather Palm.

A tall, slender, and very graceful palm, with yellowish stems and leaf stalks, and bright green foliage.

	Per Pot.	Per Doz. Pots.
Plants in 3½-inch pots (three plants in each pot)	\$0.80	\$7.50
Plants in 5-inch pots " " "	1.00	11.00
Plants in 6-inch pots " " "	2.00	20.00
Plants in 7-inch pots " " "	3.50	35.00
Larger Plants, \$5.00 to \$30.00 each.		

COCOS WEDDELLIANA.

Fine, delicately formed leaves of great beauty; the most slender of the upright, feather-leaved Palms.

	Each.	Per Doz.
Plants in 2½-inch pots	\$0.30	\$2.50
Plants in 3-inch pots50	5.00
Plants in 3½-inch pots70	6.00
Larger Plants (three in each pot), \$2.00 per pot.		

*Cocos Weddelliana.***PHŒNIX RECLINATA. Date Palm.**

A very handsome plant for conservatory decoration, of erect and straight growth and forming a striking contrast with fan-shaped and other feather-leaved palms.

	Each.
Plants in 4-inch pots	\$0.50
Plants in larger pots each, \$1.00 to \$5.00.	

LATANIA BORBONICA. Fan Palm.

One of the hardiest Palms, suitable for either house or conservatory; its broad shining, deep green leaves being extremely decorative.

*Latania Borbonica.*

	Each.	Doz.
Plants in 3½-inch pots, 3 to 5 leaves	\$0.50	\$5.00
Plants in 4-inch pots, 5 to 6 leaves70	6.00
Plants in 5-inch pots	1.00	10.00
Plants in 6-inch pots	1.50	15.00
Plants in 7-inch pots	2.50	25.00
Plants in 8-inch pots	4.00	40.00
Plants in 9-inch pots	6.00	60.00

PANDANUS UTILIS. Screw Palm.

A decorative and interesting plant; the large leaves in leaving the stem forming a continuous spiral. It grows wild in the Hawaiian Islands, often attaining a height of 30 or 40 feet; and its fibre was used by the natives for making cloth.

	Each.
Plants in 4-inch pots	\$0.50
Plants in 6-inch pots	\$1.00 to \$1.50
Plants in 7-inch pots	\$2.00 to \$3.00

PANDANUS VEITCHII. Variegated Screw Palm.

The leaves are deep green with wide bands of pure white running their entire length; a very ornamental plant and succeeding well in window or conservatory.

	Each.	Per Doz.
Plants in 4-inch pots	\$0.75	\$7.50
Plants in 5-inch pots	1.50	15.00
Plants in 6-inch pots	2.00	20.00
Plants in 7-inch pots	4.00	40.00

*Cycas Revoluta.***CYCAS REVOLUTA. Sago Palm.**

One of the hardiest conservatory plants, also useful for piazza decoration in summer. We offer Japanese Stock, our own importation, with strong healthy crowns developed since arrival in our greenhouses.

Strong plants in 6-inch pots; each, \$1.00; Larger plants, each, \$2.00 to \$8.00

ORNAMENTAL FOLIAGED PLANTS.**ARAUCARIA EXCELSA. Norfolk Island Pine.**

We also carry **Cedar Plant Tubs**, price list on application.

BEGONIA GLOIRE DE LORRAINE.

Of all Winter-Blooming Plants, **Begonia Gloire de Lorraine** and its varieties, are the most lavish in their production of flowers. From October until May, the plants are so profusely covered with blossoms as to almost conceal the foliage. The flowers of **Begonia Gloire de Lorraine** are of a bright salmon-rose color, growing in large gracefully drooping panicles. Since its introduction this plant has been constantly gaining in popularity, so that the supply has been quite inadequate.

Mr. William Falconer, Superintendent of Schenley Park, at Pittsburgh, Penn., writing us, Feb. 25, 1899, says: "Begonia Gloire de Lorraine received today. It is a very beautiful little plant and so full of blossoms. It is one of the real good things of recent introduction."

The plants we offer have not been forced, but have been cool-grown and are stout and stocky. With ordinary care they should remain in full bloom for several months, either in the house or conservatory.

BEGONIA GLOIRE DE LORRAINE, Nana Compacta.

One-Third Natural Size.

Plants in $2\frac{3}{4}$ inch pots, each, 25c.; per dozen, \$2.50; per 100, \$18.00.

Plants in 4 inch pots, each, 40c.; per dozen, \$4.00; per 100, \$30.00.

Plants in 6 inch pans, each, \$1.00; per dozen, \$10.00.

The smallest size only by mail, 30 cents each.

BEGONIA CALEDONIA, The White Variety of Begonia Gloire de Lorraine.

CALEDONIA has the same beautiful foliage as "Gloire de Lorraine," the same habit, the same height, the same marvelous floriferousness, the same persistency of petal, the same continuity of flowering, while it has proved itself of even more vigorous and robust growth. It is an excellent companion to the pink variety. We introduced and first offered this plant in the United States.

Plants in $2\frac{3}{4}$ inch pots, 50c. each; \$5.00 per dozen. By mail, 5 cents each additional.

Plants in 4 inch pots, \$1.00 each; \$10.00 per dozen. By express only.

VARIOUS ORNAMENTAL PLANTS.

BEGONIA.

Begonia Rex.

Rex Varieties. Large bronze-green and silvery leaves, usually red on the under side; very handsome. Each, **20 cents**; per doz., **\$2.00**. Larger plants, **50 cents** to **1.00** each.

WOOD PLANT STANDS.

Semi-circular stands in natural wood finish, \$1.00 to \$3.00 each.

HARDY HYBRID PERPETUAL ROSES.

The finest English-grown stock. For delivery in March or April, 1901.

One of the leading English Rosarians is now growing for us many thousands of the most popular Hybrid Perpetual Roses. Experience has proved these much better adapted to withstand our rigorous New England climate than Dutch or French Roses.

Our English-grown Roses, have given the highest satisfaction, and the stock we offer will be the best produced. The soft-wooded plants grown on the meadows of Holland, so generally sold here, are unsuited to our climate and cause disappointment.

Selected Plants each 50c.; per dozen, \$4.00; per 100, \$25.00.

SEE LIST OF VARIETIES ON PAGE 47.

HARDY HYBRID PERPETUAL ROSES.

For Spring delivery. Each 50c.; per doz., \$4.00; per 100, \$25.00.

CRIMSON RAMBLER ROSE.

We offer for October delivery fine Plants grown in our own Nursery.

This is unquestionably the finest hardy climbing Rose in cultivation. It is rampant grower, perfectly hardy and in profusion and brilliancy of flower unapproached by any other climbing rose. A plant growing on our grounds, planted four years ago produced last summer upwards of fifty thousand blossoms.

The blossoms are borne in immense clusters often 150 in a cluster, they are of a brilliant crimson color and produce a most gorgeous display.

First size plants, each 50 cents; per dozen, \$4.00.

Extra large plants, each 75 cents; per dozen, \$6.00.

HARDY SHRUBS FOR AUTUMN PLANTING.

☞ Rhododendrons, Azaleas and other shrubs which we deem it unsafe to move in the fall, are omitted from this list; they will be enumerated in our Spring Catalogue, which we mail free on application.

Concord, Black, vigorous grower, excellent flavor.
Brighton, Red, early, fine flavor; strong grower.
Niagara, White, hardy sort of fine flavor.

POT GROWN STRAWBERRY PLANTS.

These if planted in August or September produce a large crop the next summer. Being grown in pots they may be shipped to a distance and planted with almost no interruption to their growth. The earlier they are planted the larger the first season's crop will be. The plants may be set in beds of three rows, one foot apart, and one foot distant in the rows, with a space of two and a half feet between the outside rows of adjoining beds left for a pathway. They may also be planted in single rows three feet apart and one foot apart in the rows.

Bi-sexual or staminate varieties marked S, are self-fertilizing. Pistillate, or imperfect varieties are marked P, require a staminate sort planted near them for fertilization.

Prices: The Talbot, \$6.00 per 100.
Minute Man, \$4.00 per 100.
New York, Bismarck, Nick Ohmer,
Belmont and Marshall, each \$3.00
per 100.
Other Varieties, Listed, \$2.50 per 100

THE TALBOT.

THE TALBOT. (P.) This splendid new variety is of even stronger growth than the now famous Marshall Strawberry, and grown side by side with that variety has produced much heavier crops. It is of roundish conical form, bright red color; the flesh being firm, close grained, and of delicious flavor. It has taken the highest awards at the Worcester County Horticultural Society's Strawberry Exhibition, for the past two years.

MINUTE MAN. (P.) New. This is a most valuable addition, inasmuch that it bears abundantly for a longer season than any other American Strawberry. The fruit is of medium size, roundish, and slightly shouldered; bright scarlet in color, sweet, firm and without a core.

NEW YORK. (S.) Perhaps the best sort all round for private gardens. The large dark red berries are of rather long conical shape, firm texture, and in our opinion the finest in flavor of all strawberries.

BISMARCK. (S.) A fine early sort for family use or market. Berries of medium size, conical regular form, medium red color, and very firm.

SAMPLE. (P.) The flavor and fine color of the fruit are not surpassed.

NICK OHMER. (S.) New, second early; productive sort. Berries large, conical, glossy dark red, and of excellent flavor. This has been found the best and most productive sort for Winter forcing under glass.

MARSHALL. (S.) The "prize-taker" invariably; an enormous cropper and of very fine flavor.

Brandywine. (S.) Great cropper, succeeding best on heavy soils. Fruit large, bright red, of sprightly flavor.

Glen Mary. (S.) A good sort for family use. Berries large, conical, bright red color, firm, and fine flavor.

Belmont. (S.) A favorite sort for both market and family use in the vicinity of Boston. Fruit large and delicious.

Clyde. (S.) Second early; very heavy cropper. Berries conical, large and firm.

Haverland. (P.) Fruit large, of good form and fine quality; luxuriant growing variety.

Bubach No. 5. (P.) One of the best and most popular; very sweet.

LAYER STRAWBERRY PLANTS. Layer plants can be had in October of all except The Talbot at the following prices:

Minute Man	per 100	\$2.00
Nick Ohmer	" "	1.50
Other varieties above mentioned, except The Talbot	" "	1.00

☞ We can supply plants of many sorts not included in the foregoing list.

HOT-HOUSE GRAPES.

It has hitherto been necessary, when one desired to plant a Grapery to import the grape vines, if strong canes of the best sorts were desired, and the expense including duty and freight of plants in large pots was excessive.

To meet the long felt want of a home source of supply we have grown from the best imported stocks over a thousand plants, comprising the following sorts, namely:

Black Hamburg.

Black Alicante.

Bowood Muscat. White.

Lady Downe's Seedling. Black.

Madresfield Court. Black.

Mrs. J. R. Pearson. White.

Muscat of Alexandria. White.

Black Hamburg and Madresfield Court are adapted to both hot and cold graperies; the other sorts to hot graperies only.

Strong plants of the above sorts \$1.00 each.

IMPORTED PLANTS.

Strong Planting Canes \$2.50 each.
Fruiting Canes 3.50 each.

ENGLISH MILLTRACK MUSHROOM SPAWN.

The constantly increasing demand for mushrooms taxes to a greater degree the skill and perseverance of the grower. Fresh, live spawn must be obtained, without which success would be impossible. We are fully alive to the importance of quality in spawn to the mushroom-raiser and we get the best produced. It is prepared from virgin mycelium, in a compost most favorable to its development and preservation. It is germinated, and developed under special scientific methods, the conditions of air, light, heat and humidity of

the spawning houses being carefully regulated. Our mushroom-spawn then is not the uncertain material of the past, but is of uniform quality, prepared by the most successful and progressive mushroom specialist in England. Under proper treatment, it has never been known to fail. We import every two or three months to ensure freshness.

Per lb., 15c.; 8 lbs., \$1.00; 25 lbs., \$2.50; 50 lbs., \$4.50; 100 lbs., \$9.00; by mail per lb. 25c

BOOKS ON MUSHROOM CULTURE. The following are excellent:

Mushroom Culture. By Robinson, .50.

How to Grow Mushrooms. By William Falconer, \$1.40.

Messrs. R. & J. FARQUHAR & CO.,

The Mushroom Spawn I received from you last Fall is the best I ever had. My first bed began to yield on December 1st, and it looks fully as well today as at any time during its bearing. It is completely alive with small Mushrooms. I expect to get into Boston in about two weeks, when I will bring in another order for Seeds.

Respectfully yours,

ANDOVER, MASS., Jan. 20, 1900.

J. H. PLAYDON.

LAWN GRASS.

SUGGESTIONS ON MAKING AND CARING FOR LAWNS.

The ground selected for lawn, should have at least a foot in depth of good soil; it should be thoroughly pulverized and liberally enriched with well-rotted barn-yard dressing, dug well under, and the surface made perfectly smooth.

The seed sown should be a mixture of hardy, dwarf-growing grasses, free from the seeds of weeds, and when used on light soils, a little white clover should be added, say one pound to the bushel.

The seeds should be lightly raked in and the ground rolled to make the surface firm.

Perhaps the best time of the year to sow a new lawn is September; the natural seeds of weeds which are present in every soil do not start then, and the grass gets a season's growth in advance of the weeds. The next best season is early spring, the earlier the better, so that the grass may get started as much as possible before indigenous weeds.

The after care of a lawn is also important. It should be regularly cut, otherwise the coarser grasses will grow up and choke out the finer sorts, thus destroying the smooth velvety surface so much to be desired. It should be regularly enriched by top-dressing with good abattoir lawn dressing, fine ground bone, unleached wood ashes, etc. Lawn dressings composed entirely of chemicals, should be used cautiously and applied only when the grass is dry. Barn-yard manure should never be used to top-dress lawns; it usually contains seeds of noxious weeds from the hay, which when introduced, are difficult to exterminate.

Every spring the lawn should be raked over with a steel garden rake, which will take out dead grass and scratch the ground somewhat. A little lawn grass seed should be scattered over bare or thin spots, and the whole rolled to render the surface even and firm.

Farquhar's Evergreen Lawn Grass. A mixture of dwarf, hardy persistent grasses producing a close, deep green, velvety turf. Only fresh, clean seeds, of high germination are used. Our Grass Seeds are celebrated throughout New England and are extensively used in the parks of Boston, the Newport and Lenox estates and other leading summer resorts. Per bushel, \$4.00; per peck, \$1.00; per quart, 20 cents. By mail, postage-paid peck, \$1.50; quart, 25 cents.

New Boston Parks Lawn-Seed. We have received from Messrs. Olmsted, Olmsted & Eliot, their formula used in seeding the beautiful lawns and terraces of Boston's new parks. Franklin Park and in fact all the Metropolitan parks have been planned by this firm of eminent landscape architects, and their formula for the Lawn-Grass Seed mixture used may be accepted as the best which great experience and extended knowledge can suggest. The seed is fresh, clean and free from weeds, producing a perfect, velvety green turf in a remarkably short time.

62 lbs., sufficient for <i>one acre</i> (43,560 square feet)	\$15.00
31 lbs., sufficient for <i>one-half acre</i> , (21,780 square feet)	7.50
16 lbs., sufficient for <i>one-quarter acre</i> , (10,890 square ft)	4.00
1 lb., sufficient for <i>700 square feet</i>30

Add eight cents per pound to these prices if wanted by mail.

ENGLISH LAWN GRASS, Finest Mixture. Per bushel, \$3.00; peck, 75 cents; quart, 20 cents. By mail, post-paid, peck, \$1.25; quart, 25 cents.

SPECIAL GRASS SEED MIXTURES.

This department of our business receives particular attention. All our formulas and mixtures are personally prepared by Mr. James Farquhar.

FARQUHAR'S MIXTURE FOR SHADY PLACES.

This is a mixture of extra fine grasses adapted for growing in the shade. We recommend the use of this mixture wherever other grasses have failed to make a close sward.

Quart 35 cents; peck, \$1.50; per bushel of 20 lbs., \$5.00.

The following specially prepared Mixtures at a uniform price as follows, viz.:

Quart, 30 cents; peck, \$1.50; per bushel of 20 lbs., \$5.00. If by mail add 8 cents per quart extra. Special quotations for large quantities.

THE "GOLF LINKS" MIXTURE.

During the last visit to Scotland, we visited several of the courses, to ascertain the variety of Grasses generally used to produce the fine, close sward so common there. We have supplied several Clubs the past year with the Mixture, which we now offer and which is the result of a careful study of the requirements for making beautiful Golf Links. We do not hesitate to say that it has given entire satisfaction.

THE "PUTTING GREEN" MIXTURE.

The very finest low growing Grasses are contained in this Mixture and they are also very hardy. This Mixture will produce a beautiful and lasting green turf wherever used.

THE "TERRACE" MIXTURE.

This is a Mixture of strong, deep rooted Grasses for "banks" or "terraces." Although the Grasses are strong and deep rooted, they will produce a fine green velvety appearance, and also prevent the Terrace from being washed away during heavy rains.

SASHES FOR HOT-BEDS.

Made from well seasoned lumber and glazed. Frame, 1½ inches, 3x6 feet, \$2.75; 1¾ inches, 3x6 feet, \$3.00.

SINGAPORE FIBRE HOT-BED MATS.

The most durable mat made, free from attacks of mice. Size, 6x6 feet; each, \$2.00.

STRAW MATS.

Made of fresh rye straw, tied with the best quality tarried marline. Thick and affording excellent protection from frost. Regular size, 6x6 feet; each, \$1.50. Extra heavy, \$2.00.

The FINLEY ROTARY LAWN RAKE.

Size 20 inches; Price, \$12.00

F. O. B. Cars, Boston.

The accompanying cut shows the general appearance and construction of this Rake. The principle is not unlike that of a carpet sweeper, with steel teeth in the blades, where the brush comes in the sweeper.

The movement of these blades, being rotary, causes a blast or suction in revolving, and the loose grass, leaves, twigs, and **any litter**, are forced back into the basket, which, when filled, is easily removed, so that the contents may be dumped, ready to be carried away. It can be readily adjusted to fit any work by simply turning two nuts.

Nothing escapes it. After the lawn is cut and then gone over with this rake it's as clean as a carpet and looks beautiful.

Simple and strong in construction, durable, with no intricate parts, it is the very acme of perfection as a Rake, and will, once generally introduced, be as indispensable as the lawn mower has become. **IN THE AUTUMN — "WHEN THE LEAVES BEGIN TO FALL,"** Almost every person knows what a job it is to rid the lawn of falling leaves, twigs, etc. You may rake them into piles and sweep your lawn afterwards for stray ones — and then along comes the wind and away go the leaves.

We took a Finley Lawn Rake out into the Woods last fall and selected a patch of ground that was rough and thickly carpeted with leaves, and ran it through.

It took up every leaf and twig, with not a few stones, leaving a clear, clean swath of green behind that was a delight to the eye.

ADJUSTABLE WATER BARREL TRUCK, LEAF RACK & HAND CART BOX.

By a simple arrangement of the axle, the barrel can be detached at pleasure, whether full or empty. Very useful for carrying water to the garden or lawn during dry weather; for emptying cesspools, and for innumerable other purposes.

Price. Truck and barrel, complete; wheel, 2½ inch tire \$11.00; without barrel, \$9.00.

3½ " " \$12.00; " " \$10.00.

The following extra attachments can be supplied for use on the same truck when the barrel is detached, viz.: **Hand-cart Box**, \$3.50; **Leaf Rack**, \$5.50; extra barrels with trunnions, \$3.50; **Sprinkler Attachment** for barrel, \$3.50.

INDURATED FIBRE WARE.

INDURATED FIBRE FLOWER POT SAUCERS.

Not easily broken and very light.

Far cheaper in the end and better in every way than the earthenware article. Are not porous, and

will protect woodwork, tables, etc., on which plants are to stand.

FERTILIZERS.

- Pulverized Sheep Manure.** Valuable for mixing in potting soil and for liquid applications in the greenhouse; one of the best enrichers for bulb beds and top-dressing lawns. In potting soils use one part manure to eight parts soil; for top-dressing lawns, 500 to 800 pounds to the acre. **Price,** ton, \$30.00; half ton, \$15.00; 500 lbs., \$8.00; 100 lbs., \$2.25; 50 lbs., \$1.25; 10 lbs., \$0.50; 1 lb., \$0.10. No charge for sacks. F. O. B. cars.
- Complete Animal Fertilizer.** An excellent, high grade fertilizer for lawns, gardens and orchards; a nourishing and lasting plant food. **Price,** in tight boxes, 10-lb. box, 50 cents; 25-lb. box \$1.00; 50-lb. box, \$1.50; 100-lb. box, \$2.75; per ton, \$40.00.
- Pure, Fine Ground Bone.** Excellent for mixing in potting soils, top-dressing lawns and enriching the garden. **Price,** in tight boxes, 10-lb. box, 50 cents; 25-lb. box, \$1.00; 50-lb. box, \$1.50; 100-lb. box, \$2.50; barrel, \$4.50; in bags or barrels, 2 cents per pound: per ton, \$35.00.
- Bone Flour.** The finely powdered condition to which this is reduced, renders it quickly available to plants, producing immediate results. **Price,** per 100 lbs, \$3.00; barrel, \$5.00; ton, \$36.00.
- Grape or Inch Bone.** A lasting fertilizer for grape vines, fruit trees and shrubs. **Price,** in bags or barrels, 2½ cents per lb.; per ton, \$35.00.
- Nitrate of Soda.** Highest grade. **Price,** per 100 lbs., \$2.75; 10 lbs., 50 cents.
- Clay's Fertilizer.** An excellent fertilizer for greenhouse use. In original bags, 112 lbs., \$7.00; 56 lbs., \$4.00; 28 lbs., \$2.25; 14 lbs., \$1.25.
- Unleached Hard-wood Ashes.** Valuable for lawns, fruit trees and general garden use. 100 lbs., \$1.25; 200 lbs., \$2.00; \$15.00 per ton., net, F. O. B. Boston.
- Lawn Dressing.** This is the best material with which to top-dress lawns, being free from the seeds of weeds contained in barn-yard manure. **Price,** trial bags for 1,000 square feet, 50 cents; bag, 2,500 square feet, \$1.00; 50 lbs., for 5,000 square feet, \$1.75; 100 lbs., for one-fourth acre, \$3.00.

FERTILIZERS FOR POT PLANTS.

- Bowker's Ammoniated Flower Food.** A clean, dry powder, soluble in water and a valuable plant food. **Trial Package,** 15 cents; by mail, 25 cents. **Large Package,** 25 cents; by mail, 50 cents.
- CANARY GUANO.** The best for garden and greenhouse, in tins as imported, each 50 cents.

INSECTICIDES.

- Seal Oil Soap.** Destroys scale, red-spider, thrip, aphid and mealy-bug without injury to the plants; one of the best insect destroyers. In boxes, 1 lb., 25 cents; 5 lbs., \$1.00.
- Fir-Tree Oil.** An excellent insecticide for general use, soluble in water and having a pleasant odor. Full directions on each package. **Price,** half-pint, 50 cents; pint, 75 cents; quart, \$1.25.
- Persian Insect Powder.** Destroys green and black flies on plants, fleas, etc. Per lb., 50 cents.
- Tobacco Stems.** For fumigating, also mulching beds of Roses, Violets, Lettuce and other plants. Per barrel, \$1.00; large case \$2.00.
- Tobacco Dust.** Dusted on plants, destroys green and black aphid. 5-lb. package, 25 cents; 100 lbs., \$2.50.
- Tobacco Flour and Sulphur.** Finely pulverized and mixed. Per lb., 10 cents; 10 lbs., 75 cents; 100 lbs., \$6.00.
- Tobacco Soap, Rose's Perfected.** Destroys green fly, red spider, scale, lice, and eggs of insects. Box, 25 cents; by mail, 38 cents.
- Lemon Oil.** An effective insecticide for aphid, thrip, mealy-bug, red spider, wire-worms and slugs. Pint, 40 cents; quart, 75 cents; 2 quarts, \$1.25; gallon, \$2.00; 6 Gallon Keg, \$9.00.
- Flour of Sulphur.** Prevents and checks mildew on plants. Per lb., 8 cents.
- Gishurst's Compound.** A favorite English insecticide for all greenhouse pests. Per box, 60 cts.; by mail, 80 cts.
- Bordeaux Mixture.** For prevention and cure of all forms of blight. Per gallon, \$1.00; per quart, 40 cents.
- XL. All Vaporizing Compound.** An English patent, now considered to be the most easy, safe and effectual method of fumigating greenhouses, destroying all insects. Bottle for 5,000 cubic feet, \$1.25; bottle for 10,000 cubic feet, \$2.50; bottle for 20,000 cubic feet, \$5.00.
- Fumigator.** Consisting of copper cup, cylinder and lamp, \$1.25 each.

HYACINTH GLASSES.

Full directions for growing Hyacinths in glasses will be found on page 2. This mode of culture is exceedingly interesting, and the results highly satisfactory.

Tall Glasses, 15 cents each; \$1.50 per doz.

Tye's Pattern, 20 cents each; \$2.00 per doz.

HYACINTH OR BULB POTS.

POTTING SOIL, LEAF MOULD, PEAS, ETC.
FOR BULBS AND PLANTS.

Potting Soil for Bulbs. Specially prepared with loam, leaf mould, sand and fertilizer in right proportions. Per peck, \$0.30; bushel, \$1.00. barrel, \$2.00.

Leaf Mould. Of superior quality. Peck, \$0.30; bushel, \$1.00; barrel, \$2.00.

Rotted Fibrous Peat. Per peck, \$0.30; bushel, \$1.00; barrel, \$2.00.

Sphagnum Moss. Of excellent quality. At most seasons we can furnish it both freshly gathered and dried. Peck, \$0.30; bushel, \$1.00; barrel, \$1.50.

Hitchings' Hot Water Boilers

FOR GREENHOUSES,

DWELLINGS, Etc.

Patent Corrugated Fire-box Boilers, Conical Boilers, Saddle Boilers, Base Burning Water Heaters, Heating Pipes, Pipe Fittings, Stop Valves, Expansion Tanks, Evaporating Pans, etc. Estimates cheerfully given for heating and ventilating greenhouses. These are undoubtedly the best greenhouse heaters in the market; economical of fuel, powerful, very durable, and moderate in price. We have sold a large number of these boilers.

Customers requiring Boilers or contemplating changes in their heating apparatus, are invited to get our prices.

JOHNSON'S GARDENER'S DICTIONARY.

A book which every one with a garden should own. This admirable publication is a new, revised and greatly enlarged edition of Johnson's Gardener's Dictionary, first published in 1846, containing a full and reliable list of every plant in cultivation, names printed in bold type, rendering references easy. An important feature of the work is the placing of synonyms alongside the correct name, instead of in a separate list. The habitat of each variety is given along with the date of its introduction. The cultural directions are brief and to the point. Insect foes, diseases and their remedies are fully described; and figures of some of the former have been given. The Dictionary is a large, handsomely bound volume. Price, postpaid, \$4.00

FARQUHAR'S Northern-Grown Liliun Candidum

The true old-fashioned WHITE LENT LILY

IT IS PERFECTLY HARDY OUT OF DOORS,
BLOOMING IN JUNE THE EARLIEST
OF ALL LILIES

IT IS VERY EASILY FORCED AND
OF GREAT VALUE FOR WINTER
DECORATION

North Eastern Mass. May 27, 1901.
Messrs. J. V. Farquhar & Co.
18 South Market St.
Boston, Mass.

Dear Sirs:-
The *Liliun candidum*
we purchased from you last
August have been remarkably
fine, better than we have had
for years. Of those grown in
pots, few bulbs threw less
than two flowering spikes,
some giving as many as four,
with from five to twelve
flowers on each. Our door-
grown stock is equally good,
and we have not had a
trace of disease on any of
our plants. Yours very truly,
William H. King.

Mammoth Bulbs Per 100, \$6.00, Per Dozen \$1.00, By Mail Per Dozen \$1.50
